

TQC-700DII Mobile Whip Antenna

Specially designed for automobile communications, TQC-700DII mobile whip antenna is made of special stainless steel spring material. It features good flexibility. There are three fixing ways to choose: Magnetic mount, Roof gutter mount and Rooftop mount bracket. Otherwise, the connector of the antenna can be customized.

Specifications	
Model	TQC-700DII
Frequency Range-MHz	690-800
Bandwidth-MHz	30
Gain-dBi	5.5
VSWR	≤1.5
Input Impedance-Ω	50
Polarization	Vertical
Maximum Power-W	100
Connector	UHF male or customization
Length-mm	500 (may vary a little with central freq.)
Weight-g	250
Note: crashworthy spring at the bottom; working with a M110 big magnetic mount. The height and weight of the antenna may vary a little with frequency.
