

# TQX-400RS Terminal Antenna

TQX-400RS Terminal antenna is designed for the 400 MHz communication systems. The portable antenna is small and beautiful and it is easy to install.

| Specifications      |                              |
|---------------------|------------------------------|
| Model               | TQX-400RS                    |
| Freq. Range -MHz    | 400-480                      |
| Bandwidth – MHz     | 16                           |
| Gain -dBi           | 2.15                         |
| VSWR                | ≤2                           |
| Nominal Impedance-Ω | 50                           |
| Polarization        | Vertical                     |
| Maximum Power-W     | 30                           |
| Connector           | SMA male                     |
| Dimension-cm        | 17.5(Depending on Frequency) |
| Weight-g            | 6( Depending on Frequency )  |
